

Ioana Criclevit

Senior Data Analyst

London • 07759124932 • ioanapcriclevit@gmail.com • [LinkedIn](#)

Professional Summary

Data analyst with eight years of experience building automated analytical products, developing methodologies to measure the impact of policy initiatives across complex multi-source datasets, and translating insight into clear, actionable recommendations for operational stakeholders. Track record of owning the full analytical lifecycle, from designing ETL pipelines and measurement frameworks to producing polished visualisations and stakeholder briefings. Brings strong SQL foundations, rigorous statistical grounding, and genuine enthusiasm for working with product and commercial teams to drive evidence-based decisions in fast-moving environments.

Key Skills

Technical: SQL · SAS · R (ggplot2, plotly, R Markdown) · Excel · Git · ETL pipeline design · Large-scale data processing (800M+ records) · Automated QA frameworks · Code versioning.

Analysis: Measuring impact of initiatives · Statistical analysis · Translating ambiguous requirements into analytical frameworks · Multi-source data consolidation.

Visualisation & Reporting: Interactive visualisations and reports in R · Power BI · Reports tailored for non-technical stakeholders.

Delivery & Collaboration: Cross-functional agile delivery · Commercial and operational stakeholder engagement · Data product lifecycle ownership · Coaching and mentoring junior analysts.

Professional Experience

Data Sharing and Identity Fraud Policy Lead

Home Office – London | Jan 2024 – Mar 2026

- Established and ran a cross-sector working group of 85+ organisations across banking, fintech, telecoms and law enforcement, synthesising diverse stakeholder input into structured, evidence-based recommendations for senior decision-makers.
- Delivered the UK's first public consultation on economic crime data sharing, translating complex cross-government requirements into clear analytical frameworks and accessible policy documentation.
- Produced executive briefings and policy papers translating complex, multi-source analysis into clear, actionable recommendations for technical and non-technical audiences.

Senior Data Analyst

Department for Work and Pensions (DWP) – London | Nov 2021 – Jan 2024

- Developed and implemented a methodology for measuring outcomes across a complex, multi-source dataset where no established baseline existed, producing the UK's first statistics on the number of Universal Credit health claimants and closing an eight-year reporting gap.
- Translated ambiguous business requirements into defined metrics and automated reporting solutions, improving access to timely, decision-ready performance data.
- Established automated data quality frameworks and validation rules across multiple large-scale sources, resolving inconsistencies and materially improving reliability of analytical outputs.
- Designed and implemented ETL pipelines in SAS and SQL, processing 800M+ records with disciplined code versioning to ensure reproducibility and auditability.
- Developed intuitive data visualisations and analytical products in R and Excel, prioritising usability for operational and policy decision-makers.
- Managed and coached junior analysts, setting objectives and reviewing outputs to build capability and ensure high-quality delivery.

Junior Data Analyst

Department for Work and Pensions (DWP) – London | Oct 2019 – Nov 2021

- Automated QA processes in SAS from scratch, reducing a week-long manual process to a single day, directly improving the accuracy and reliability of analytical outputs.
- Built interactive data visualisations in R (ggplot2, plotly) and R Markdown, translating complex statistical outputs into accessible, intuitive reports for non-technical audiences.
- Delivered recurring publication-ready data products under tight deadlines, achieving 100% on-time delivery across a complex, interdependent workload.
- Extracted and manipulated data from operational relational databases using SAS, performing joins, filters, and aggregations to build analysis-ready datasets.

Data Analyst

Department for Levelling Up, Housing & Communities – London | Apr 2018 – Oct 2019

- Consolidated and analysed data from 317 sources to build a unified analytical dataset supporting data-led reporting on national housing policy performance.
- Automated data processing in R and SQL, reducing manual effort by 66% and delivering more reliable, reusable performance metrics.
- Produced analytical reports and data summaries for senior stakeholders, translating complex multi-source outputs into clear, actionable insights.

Education

MSc Social Statistics, Research Methods — Distinction: | University of Southampton

BSc Criminology — First Class Honours: | University of Southampton

Professional Development

Microsoft Power BI Data Analyst: | Microsoft (Coursera) | 2025

Basic Statistics: | University of Amsterdam (Coursera) | 2025

GitHub Foundations (Part 1 of 2): | Microsoft | 2025
