

Ioana Criclevit

Senior Data Analyst

London • 07759124932 • ioanapcriclevit@gmail.com • [LinkedIn](#)

Professional Summary

Data analyst with eight years of experience building automated analytical products, maintaining data quality across complex multi-source datasets, and translating insight into clear, actionable recommendations for technical and non-technical audiences alike. Proven track record of owning the full analytical lifecycle, from designing ETL pipelines and QA frameworks to producing polished visualisations and stakeholder briefings in high-stakes environments. Brings strong analytical rigour and a broad, adaptable skill set to a generalist insights role, with genuine enthusiasm for working across business functions and leveraging new tooling to unlock analytical opportunities.

Key Skills

Technical: SQL · SAS · R (ggplot2, plotly, R Markdown) · Excel · Git · AWS · ETL pipeline design · Large-scale data processing (800M+ records) · Automated Quality Assurance and data quality frameworks · Code versioning · Reproducible analytics · GenAI-assisted workflow optimisation.

Visualisation & Reporting: Interactive visualisations and reports in R · Power BI · Reports tailored for technical and non-technical audiences.

Analysis: Statistical analysis · Problem structuring · Translating ambiguous requirements into data-driven solutions · Multi-source data consolidation and integration.

Delivery & Collaboration: Cross-functional agile delivery · Data product lifecycle ownership · Stakeholder engagement and briefing · Coaching and mentoring junior analysts.

Professional Experience

Data Sharing and Identity Fraud Policy Lead

Home Office – London | Jan 2024 – Mar 2026

- Established and ran a cross-sector working group of 85+ organisations across banking, fintech, telecoms and law enforcement, synthesising diverse stakeholder input into structured, evidence-based recommendations for senior decision-makers.
- Delivered the UK's first public consultation on economic crime data sharing, translating complex cross-government requirements into clear analytical frameworks and accessible policy documentation.
- Produced executive briefings and policy papers translating complex, multi-source analysis into clear, actionable recommendations to technical and non-technical audiences.

Department for Work and Pensions (DWP) – London | Nov 2021 – Jan 2024

- Translated ambiguous business requirements into defined metrics and automated reporting solutions, improving access to timely, decision-ready performance data aligned with operational goals.
- Established automated data quality frameworks and validation rules across multiple large-scale sources, resolving inconsistencies and materially improving reliability of analytical outputs.
- Designed and implemented ETL pipelines in SAS and SQL, processing 800M+ records with disciplined code versioning to ensure reproducibility and auditability.
- Developed intuitive data visualisations and analytical products in R and Excel, prioritising usability for both operational and policy decision-makers.
- Managed and coached junior analysts, setting objectives and reviewing outputs to build capability and ensure consistently high-quality insight delivery.

Data Analyst

Department for Work and Pensions (DWP) – London | Oct 2019 – Nov 2021

- Automated QA processes in SAS from scratch, reducing a week-long manual process to a single day, directly improving the accuracy and reliability of analytical outputs.
- Built interactive data visualisations in R (ggplot2, plotly) and R Markdown, translating complex statistical outputs into accessible, intuitive reports for non-technical audiences.
- Delivered recurring publication-ready data products under tight deadlines, achieving 100% on-time delivery across a complex, interdependent workload.
- Extracted and manipulated data from operational relational databases using SAS, performing joins, filters, and aggregations to build analysis-ready datasets for statistical publication.
- Coached and line managed junior analysts through complex transitions, maintaining high-quality output standards and supporting professional development.

Data Analyst

Department for Levelling Up, Housing & Communities – London | Apr 2018 – Oct 2019

- Consolidated and analysed data from 317 sources to build a unified analytical dataset supporting data-led reporting on national housing policy performance.
- Automated data processing in R and SQL, reducing manual effort by 66% and delivering more reliable, reusable performance metrics.
- Produced analytical reports and data summaries for senior stakeholders, translating complex multi-source outputs into clear, actionable insights.

Education

MSc Social Statistics, Research Methods — Distinction: | University of Southampton

BSc Criminology — First Class Honours: | University of Southampton

Professional Development

Microsoft Power BI Data Analyst: | Microsoft (Coursera) | 2025

Basic Statistics: | University of Amsterdam (Coursera) | 2025

GitHub Foundations (Part 1 of 2): | Microsoft | 2025
