

Ioana Criclevit

Senior Data Analyst

London • 07759124932 • ioanapcriclevit@gmail.com • [LinkedIn](#)

Professional Summary

Data analyst with eight years of experience monitoring business performance across large, multi-source datasets, building automated reporting products, and translating insight into clear, actionable recommendations for commercial and operational teams. Track record of consolidating fragmented data sources into unified analytical frameworks – including a project integrating 317 separate sources – and delivering high-integrity, decision-ready reporting in fast-moving environments. Brings strong SQL foundations, meticulous attention to data quality, and genuine enthusiasm for working across business functions to surface the insights that drive performance.

Key Skills

Technical: SQL · SAS · R (ggplot2, plotly, R Markdown) · Excel · G-Suite · Git · ETL pipeline design · Large-scale data processing (800M+ records) · Automated QA and data quality frameworks · Code versioning.

Analysis: Multi-source data consolidation · Business metric monitoring · Discrepancy investigation and resolution · Data integrity · Statistical analysis · Translating ambiguous requirements into analytical outputs.

Visualisation & Reporting: Interactive dashboards and reports in R · Power BI · Recurring automated reporting products · Commercial and stakeholder-ready reporting.

Delivery & Collaboration: Cross-functional agile delivery · Commercial and operational stakeholder engagement · Data product lifecycle ownership · Coaching and mentoring junior analysts.

Professional Experience

Data Sharing and Identity Fraud Policy Lead

Home Office – London | Jan 2024 – Mar 2026

- Established and ran a cross-sector working group of 85+ organisations across banking, fintech, telecoms and law enforcement, synthesising diverse stakeholder input into structured, evidence-based recommendations for senior decision-makers.
- Delivered the UK's first public consultation on economic crime data sharing, translating complex cross-government requirements into clear analytical frameworks and accessible policy documentation.
- Produced executive briefings and policy papers translating complex, multi-source analysis into clear, actionable recommendations for technical and non-technical audiences.

Senior Data Analyst

Department for Work and Pensions (DWP) – London | Nov 2021 – Jan 2024

- Translated ambiguous business requirements into defined metrics and automated reporting solutions, improving access to timely, decision-ready performance data aligned with operational goals.
- Established automated data quality frameworks and validation rules across multiple large-scale sources, resolving inconsistencies and materially improving reliability of analytical outputs.
- Investigated and resolved discrepancies across multiple complex datasets, building spine data products that unified fragmented sources into reliable analytical bases.
- Designed and implemented ETL pipelines in SAS and SQL, processing 800M+ records with disciplined code versioning to ensure reproducibility and auditability.
- Developed intuitive data visualisations and analytical products in R and Excel, prioritising usability for operational and policy decision-makers.
- Managed and coached junior analysts, setting objectives and reviewing outputs to build capability and ensure consistently high-quality delivery.

Junior Data Analyst

Department for Work and Pensions (DWP) – London | Oct 2019 – Nov 2021

- Automated QA processes in SAS from scratch, reducing a week-long manual process to a single day, directly improving the accuracy and reliability of analytical outputs.
- Built interactive data visualisations in R (ggplot2, plotly) and R Markdown, translating complex statistical outputs into accessible reports for non-technical audiences.
- Delivered recurring publication-ready data products under tight deadlines, achieving 100% on-time delivery across a complex, interdependent workload.
- Extracted and manipulated data from operational relational databases using SAS, performing joins, filters, and aggregations to build analysis-ready datasets.

Data Analyst

Department for Levelling Up, Housing & Communities – London | Apr 2018 – Oct 2019

- Consolidated and analysed data from 317 separate sources to build a unified analytical dataset supporting data-led reporting on national housing policy performance.
- Automated data processing in R and SQL, reducing manual effort by 66% and delivering more reliable, reusable performance metrics.
- Produced analytical reports and data summaries for senior stakeholders, translating complex multi-source outputs into clear, actionable insights.

Education

MSc Social Statistics, Research Methods — Distinction: | University of Southampton

BSc Criminology — First Class Honours: | University of Southampton

Professional Development

Microsoft Power BI Data Analyst: | Microsoft (Coursera) | 2025

Basic Statistics: | University of Amsterdam (Coursera) | 2025

GitHub Foundations (Part 1 of 2): | Microsoft | 2025
